

# Truelight Plugins datasheet

Truelight plugin for Apple Shake

## Enhanced preview functionality

Truelight plugins allow you to accurately preview film images on your computer display directly from within compositing packages. Plugins are available for Apple Shake™, Adobe After Effects™, The Foundry's NUKE™ and Eyeon Digital Fusion®.

## Working with Truelight Plugins

### Generic Truelight

Apple Shake and NUKE automatically include a generic Truelight plugin, enabling general calibration of the monitor using a 'by-eye' tool. Print emulation is provided via a selection of typical output profiles.

For increased functionality, the full Truelight plugin can be added to Apple Shake, Adobe After Effects, NUKE, and Digital Fusion (using After Effects plugin host emulation).

### Calibrated Truelight

For a more exacting calibrated environment, the full Truelight plugin includes control software for the Truelight Monitor and Projector Probes to allow you to characterise any display, combine the data with the output LUT, and create a custom 3D LUT that can then be applied to the preview render.

Truelight plugins can use the same colour profiles as other Truelight-aware systems and allow you to accurately calibrate compositing workstations across platforms, operating systems and physical locations.

## Third party product information

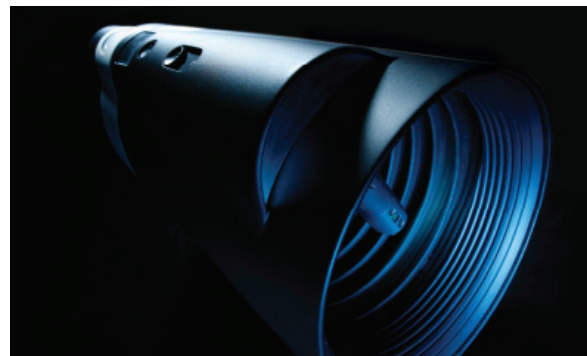

Apple Shake	<a href="http://www.apple.com/shake/">http://www.apple.com/shake/</a>
Adobe After Effects	<a href="http://www.adobe.com/products/aftereffects/">http://www.adobe.com/products/aftereffects/</a>
The Foundry's NUKE	<a href="http://www.thefoundry.co.uk/">http://www.thefoundry.co.uk/</a>
Eyeon Digital Fusion	<a href="http://www.eyeonline.com/">http://www.eyeonline.com/</a>

## Products, platforms and versions

Truelight plugins are available on the following platforms.

	Mac	Windows	Linux
Adobe After Effects 6.5		✓	
Adobe After Effects 7.0   CS3	✓	✓	
Apple Shake 3.5	✓		✓
Apple Shake 4.0   4.1 (integrated)	✓		✓
Digital Fusion <sup>1</sup>		✓	
NUKE 4.6   5.0 (integrated)	✓	✓	✓

<sup>1</sup> Plugin available using After Effects plugin emulation.
